ABANDONED UNINTENTIONALLY UNDER 37 C.F.R. §1.137(b)**

Mail Stop Petition

P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This Petition for Revival of an Application Abandoned Unintentionally under 37 C.F.R. §1.137(b) is submitted in response to the Decision on Petition under 37 C.F.R. §1.181, which was mailed from the U.S. Patent and Trademark Office (U.S. PTO) on 15 September 2009.

It is indicated that the Decision on Petition that the above-identified application became abandoned for failure to file a proper reply to the Notification of Defective Response (Form PCT/DO/EO/916), which was mailed from the U.S. PTO 27 August 2007. It is also indicated in the Decision on Petition that Applicant did not file a petition under 37 C.F.R. §1.497(d) to add Francesco Berti as an inventor, but merely indicated that Francesco Berti should have been listed as an inventor and that the error occurred without deceptive intent.

The assignee, Novartis Vaccines and Diagnostics SRL, hereby petitions for revival of the above-identified application. Enclosed is the requisite petition fee set forth in 37 C.F.R.

10/01/2009 HVUONG1 00000001 031664 10574437

§1.17(m) of \$ 1,620.00. Also enclosed is proper reply to the Notification of Defective Response and a Petition under 37 C.F.R. §1.497(d).

Since this application was filed on or after 08 June 1995, no terminal disclaimer is required.

The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 C.F.R. §1.137(b) was unintentional.

The Commissioner is hereby authorized to charge any deficiency or credit any overpayment in fees that may be due in this matter to Deposit Account No. 03-1664.

Dear Sir:

I, Francesco Berti, am an inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled:

HYPO- AND HYPER-ACETYLATED MENINGOCOCCAL CAPSULAR SACCHARIDES,
which patent application was filed as International Application No. PCT/IB2004/003366 on 04 October 2004, and assigned U.S. Serial Number 10/574,437.

In the initial filing of this patent application, Paolo Costantino acted as principal inventor and interfaced with patent counsel and when the application was filed I was inadvertently omitted from the list of inventors. This error in inventorship in the international application occurred without deceptive intention on my part.

I hereby state that prior to executing the Declaration for Utility Patent Application in the above-identified application, I had reviewed and understood the contents of the above-identified specification, including the claims.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under § 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
